Saturday, May 7th Celebrate Water!

Imagine...a time when everyone knows where our water comes from, understands where it goes and values it as one of nature's greatest resources.

The Comox Valley Regional District (CVRD) invites the community to support BC Drinking Water Week 2016, May 1-7, by learning more about your water and what you can do to protect it.

On Saturday, May 7th CVRD representatives will be on location at the entrance to the Courtenay Museum

(207- 4th Street) from 1- 4 p.m. Learn more about your water system, local water restrictions, participate in interactive family activities that involve "diving into" the value of water by exploring the museum, and take home some free water related giveaways.
